

2216G

Adjust & customize to match your bed width & row system
Heavy multi-purpose planter features

Model 2216G is the 2216 with no water tank or water system, geared to plant garlic or onions. Like the 2216, features include 5-foot racks to offer more room for seeds or plants, heavy 3" square toolbar frame and gauge wheels with 4-bolt tapered bearing hubs.

- Up to **6 Dry Wheels or Water Wheels**
- Two seats & two racks
- Four seats optional (2216G only)
- Category 1 or 2 hitch
- Fully adjustable frame, racks, seats

The same multi-use wheels are featured on garlic planters. 6" garlic spacing is common - or tell us what you need. Punches are removable for different plant spacings. Punch size is also changeable.

Water tank, water system can be retro-fitted
