

Speedy tape connection with double rolls

6115-TB

6215-TB

Models 6115-TB and 6215-TB are configured for multi-row toolbar applicators with in-line applicator shank spacing as close as 30". Use with rotating mounting brackets, which allows roll supports to turn to the rear with the pull of a pin.

Minimum 30"
tape row spacing

Rotating
roll supports

- Automatic roll brake
- Single roll (6115-TB) or double roll (6215-TB)
- Right-hand threaded spool shaft
- Roll caps standard
- Pivot mounting on multi-row toolbars - which is included with applicator toolbars

for - 6155 - 6455 - 9655

Universal Installation

Model 6115-TB and 6215-TB are available with a selection pivot mounting hardware for custom-installation on your own toolbar - please inquire.
