

Applicator Shanks

All models feature poly rollers to reduce friction

No stretching tape

(1) Roll Support + (1) Applicator Shank
= (1) complete Drip Tape Applicator

Part numbers are itemized on price list

Series 262

At the top of the list of applicator shanks is a simple rigid-mount bracket and roller to lay drip tape on top of the ground. However, buried tape offers several advantages.

Series 288

Bury tape a few inches below the surface to keep tape lines in place and away from rodents. This is also most easy to remove. Features a shoe with a single idler. If soil is hard or not tilled deep enough, lead with a ripper shank to loosen soil. Shoe can also be raised for surface application.

Rigid mounting is conventional to combine with Bed Shapers and Mulch Layers, which operate in loose-soil conditions.

For shallow application in loose seedbed soil - Maximum 5" depth

Drip Tape Surface Guide

20262 -- for 2" square toolbar
1721 - 1723 - 1912 - 1921 - 1923
2121 - 2131 - 2113 - 2133

25262 -- for 2-1/2" square toolbar
4531 - 4143 - 4612

Hint: Surface-laid tape tends to blow with the wind and "snake" under plastic mulch when expanding and contracting between day and night. Animals also find and chew on tape easier.

Drip Tape Sub-Surface Guide

20288 -- for 2" square toolbar
1721 - 1723 - 1912 - 1921 - 1923
2121 - 2131 - 2113 - 2133

25288 -- for 2-1/2" square toolbar
4113 - 4531 - 4143 - 4612

Series 420-440

The same shank and shoe is mounted with a spring-loaded parallel linkage to glide over rocks. Use in the most adverse conditions or on heavy, multi-row toolbars to protect shoes.

Series 420 mounts directly to the toolbar. Series 440 utilizes a sub-toolbar for height adjustment on larger toolbars. Optional gauge wheel provides depth control for each shoe.

Drip Tape Sub-Surface Guide w/ Parallel Linkage

20420 -- for 2" square toolbar
1721 - 1723 - 1912 - 1921 - 1923
2113 - 2121 - 2131 - 2133 - 4321 - 4412 - 4422

25420 -- for 2-1/2" square toolbar
4113 - 4143 - 4531 - 4612

Drip Tape Sub-Surface Guide w/ Parallel Linkage, Sub-Toolbar

30440 -- for 3" square toolbar

40440 -- for 4" square toolbar
