

Call for shipping quotes to Alaska and Hawaii. Serious inquiries only.

International shipping - Due to increasing difficulties with global politics and import requirements of other countries, we presently offer no exporting services. Still happy to service international sales, purchase equipment through an exporter in the United States or an importer in your country. Understand now or later, we will NOT provide ANY import/export documentation of ANY kind except our commercial invoice. Your hired importer or exporter can produce all documentation.

We still offer full trucking services to the point-of-export in the USA. We are not responsible for delivery or for merchandise in any way after delivery to the point-of-export or if you arrange all door-to-door shipping logistics.

We do not mark crating and packaging materials nor offer special crating services to meet import requirements of other countries. If needed, the importer/exporter recrates/repackages shipment at your expense.
